

COMPANY PROFILE

2024

Suppliers and Installers of CCTV, Access Control Intruder Alarms, Residential & Industrial
Lighting Equipment Installers of Residential and Industrial Solar Systems

INTRODUCTION

Quality Surveillance Investment entered into the market in 2019. QSI specialised in electrical lighting supplies, on-grid and off-grid solar systems. The business was born to fill a niche in the supply of integrated lighting and electrical security equipment in the industrial, commercial and residential sector.

Since inception QSI has focused on two key areas: uncompromised security-crime prevention balanced with affordable cost effective security solutions. QSI unique approach coupled with seasoned human resources has seen it grow towards becoming one of the leading suppliers to the security and electrical industry.

COMPANY VISION, MISSION & ETHICS

VISION

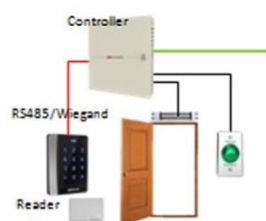

To be the leading one stop shop for the supply, installation and maintenance of electronic and electrical equipment. We strive to give our clients the most powerful, versatile and reliable up to date security system from leading brands which are designed to last.

MISSION

We are committed to providing our clients with highly effective, modern technologically advanced systems at the cutting edge of this rapidly advancing industry.

ETHICS

Our business is people centred. We remain uncompromising in our quest for, and delivery of the highest standard ethics in all activities. The principles of fairness, understanding, honesty and objectivity govern our dealings with our clients.

DETERMINATION & PROFITABILITY

DETERMINATION:

We acknowledge that our professional and personal growth will result from developing our full potential. We pride in our business and we are constantly seeking opportunities to improve our service offering to ensure clients satisfaction.

PROFITABILITY AND GROWTH:

As a company, we expect profitability and growth. We remain realistic in our expectations. Our main aim is to achieve consistent and fair profits, through growing our business whilst maintaining our principles and continually safe guarding the assets of the company as well as prioritizing our customer's needs, ensuring long lasting relationships.

“ Persistence & determination alone are omnipotent ”

- Calvin Coolidge

OUR SERVICES

QSI is positioned as a system integrator, which applies its knowledge of the relevant industry and market segments to develop unique, fully integrated systems of our clients needs and requirements, whilst being cost effective for its application.

Since our clients 'specific requirements govern our business, QSI does not adopt an exclusive product focus. Brands, which have been found to comply with the high standards of operations in the risk management, include the following:

Digital Video and Recording

- Dallmeier
- Hikvision
- Nice Vision
- Bosch
- Samsung
- Dahua
- Sony

Access control market

- Babylon NT
- Honeywell
- Dahua,
- Hikvision
- Impro
- Suprem

Industrial Networks Market

- Hirschman
- Fibre Networks
- CADDX
- Cisco
- Impro/Lenel

Fire Detection Suppression

- Airtech
- Techno switch,
- ziton

Intrusion Detection

- Elvey
- Dsc
- IDs,
- Caddx
- Paradox

Gate motor installation

- Centurion (emote keys to open and close)
- ET gate motors

OUR PRODUCTS POWER SUPPLIERS

QSI provides electrical power supply backup system for domestic, industrial and commercial systems . We supply, install and maintain petrol and diesel generators, invertors, Uninterrupted power supplies (UPS) as well as solar systems.

SOLAR SYSTEMS:

QSI offers innovative products and turnkey renewable energy solutions for the agricultural, residential and commercial sectors throughout Africa. QSI specialises in application-specific design, accurate energy assessments, installation services, training and strong product support. QSI bring sustainable, renewable, affordable, off-grid solar energy into the many homes and businesses: fast-tracking infrastructure, communication, water pumping, education, entertainment, possibilities, hope and a better standard of living for all.

FIRE DETECTION SYSTEMS:

QSI offers turnkey detection systems employing the latest industrial and commercial products and technology from manufacturers such as Technoswitch and Ziton. Over and above conventional and addressable fire panels, smoke detectors, heat detectors, fire beams, and alarms, we supply and install robust, high performance infrared flame detectors.

TRANSPORT:

QSI has a stable and reliable fleet of 5 vehicles to execute and magnitude of project, these range from 1 to 14 tonne trucks.

PROJECT EXPERIENCE

To date Quality Surveillance Investment has been involved in a number of projects which include refurbishment, network strengthening, electrification, substation and sub transmission work. In addition, on the operational side, QSI has been involved in live work maintenance and DSM Projects.

The refurbishment works entailed carrying out systems studies, developing strengthening plans, creating projects plans and costing the project for implementation. The electrification work entailed the designing, tendering, project management and project closure .The sub-transmission work entailed designing, tendering and project management for substation control plant.

Live work entailed rogue feeder maintenance, installation of new equipment and woodpole, replacement .On the demand side management front, QSI has been involved in energy initiatives by Eskom that require the retrofitting of CFL's in residential areas.

We have developed and installed various systems and applications in the following market segments:

- Banking -Mining -Petrol Chemical
- Telecommunications -Toll roads -Airports
- Railways -Ports -Energy -Hospitals and Universities

VALUE ADDED SERVICES OFFERED

- Detailed system application study -Conceptual systems and design -Engineering
- Product Supply -Installation -Commissioning -Quality management -Training
- System support -Project management -Maintenance and service -Hardware and software customization.

PROJECT EXPERIENCE

EXPERIENCE

QSI together with its alliance partner has a vast experience in the various market segments .QSI can custom design, install and maintain fully integrated electronic security systems to suit your requirements both practically and financially, thus keeping you and your assets secure and your systems to suit your requirements both practically and financially, thus keeping you and your assets secure and your systems ahead of the rest.

As a dynamic, creative and innovative corporation QSI, through its strategic partnerships, can offer state of the art solution in the power distribution industry. These following consulting services are offered to the electrical industry

- System design and planning that included both primary and secondary plant
- System refurbishment
- Systems operation
- System secondary plant
- Metering designs
- Telecontrol design
- Control plant installations
- Electrification - including rural and urban schools
- Project management
- Public lighting schemes
- Demand side management intervention including load management and energy efficiency.

PRODUCTS

We supply technologically superior equipment rom reputable brand names, tried and tested ,reliability and efficiency and back up .This ensures that your security systems are durable and indeed up to date.

We supply equipment for **-Intruder alarma -Access control (Suprema)**

In trying to provide the best security for entry and exit points and for clocking systems (Time and attendance) the following systems are available. -Hikvision.

The above systems can incorporate a third part, that is biometric readers (Fingure print readers), and can be used for time and attendance **-CCTV Surveillance systems -CCTV- (NVT) Network Video Technology**

HIK vision is the main product that we distribute and it comes as LINUX based system with networking capability. the systems vary with number of cameras required and also picture resolution.

MANAGEMENT & STAFF

MUTUMWAPAVI BINDUKI

The board is chaired by Mutumwapavi Binduki. He has extensive knowledge of electronic security systems and has over 11 years in this field. Mutumwapavi worked on electronic security systems on a day to day basis at Charlode Electronics systems, which he left to pursue personal interests. Mutumwapavi is highly competent with IMPRO IXP series having been trained by IMPRO SA and has dealt with Proxnet and Hikvision and other types of intruder and fire alarm systems. Mutumwapavi holds a diploma in computer science from the Harare Polytechnic College He managed several projects whilst with cha... Systems ranging from CCTV, Access Control and Intruder Alarms. At the time of leaving Charlode, he was the Operations Manager.

JUSTICE CHIGWADA

Justice Chigwada has extensive experience and knowledge of information technology. He holds a Bachelors of Science Honours Degree in Telecommunications and has a masters from Telone Zimbabwe. His main focus of study was on the quality of service in wireless and HOC Network carrying multimedia traffic. His field of study will help our company in the implementation of (VoIP) Voice over IP and Video over IP that is in the networking of branches in different locations

ALLUWIS TUME

National certificate: Electrical Power Engineering (NQF4)Alluwis is an experienced artisan electrician who has been exposed to a wide variety of activities in the electrical industry for the past 5 years. Michael has been involved in the following: -Industrial electrical plant maintenance and repairs -AD/DC machines -Construction and quality control of electrical reticulation networks upto 33Kv -Substation Construction.
